

Civmec Construction and Engineering is an integrated, multi-disciplined construction and engineering service provider to the oil and gas, metals and minerals, infrastructure and marine and defence markets.

Civmec provides full, fair and reasonable opportunity for local industry to take part in all its activities. This maximises participation where subcontractors and suppliers are capable and competitive on the basis of OHS, environment, quality, delivery and value-for-money standards.

To implement this policy, Civmec will:

- Implement a systematic approach to ensure compliance with this policy across all subcontractor and supplier packages
- Develop project specific LIP plans thus ensuring individual client expectations are met or exceeded
- Provide early and fair opportunities to all local industries
- Develop a communications strategy for local industry so that they are informed at the earliest opportunity of upcoming subcontractor/supply opportunities
- Ensure local capabilities are considered when planning work scope to optimise opportunities for local businesses
- Provide training and development opportunities for local providers in order to enhance their sustainability
- Give preference to tenderers that use the greatest local content in labour and materials
- Work with government, industry bodies and communities to improve local industry participation, capability and competitiveness

Civmec Construction and Engineering implements corporate policies as part of a robust quality assured management system that aims to deliver exceptional outcomes for our clients and an inclusive workplace for our people.
