**A. Statement of Comprehensive Income**

**Q4 FY2015 vs Q3 FY2015**

Revenue for the quarter ended 30 June 2015 ("Q4 FY2015") increased 30.5% to S\$114.7 million from S\$87.9 million for the three months ended 31 March 2015 ("Q3 FY2015"), aided by contributions from contracts secured in the second half of FY2015.

Gross profit for Q4 FY2015 rose 20.5% to S\$14.1 million for S\$11.7 million in Q3 FY2015 on the back of the increased revenue, although gross margin slipped to 12.3% from 13.4% over the comparative periods. The reduced profit margin was partly a result of the Group undertaking larger projects, which typically command lower margins.

Net profit for Q4 FY2015 attributable to shareholders rose 22.6% to S\$6.5 million from S\$5.3 million in Q3 FY2015.

**Q4 FY2015 vs Q4 FY2014**

Compared to the three months ended 30 June 2014 ("Q4 FY2014") revenue for Q4 FY2015 fell 31.2% to S\$114.7 million. This led to a lower gross profit of S\$14.1 million, down 27.4% from a year earlier.

Administrative expenses for Q4 FY2015 increased to S\$9.6 million from S\$5.4 million in Q4 FY2014 mainly due to a S\$2.9 million bad debt written off for a client that had commenced administrative proceedings.

Q4 FY2015 net profit attributable to shareholders declined 43.5% to S\$6.5 million from S\$11.6 million in Q4 FY2014, impacted by lower revenue and the one-off S\$2.9 million (before tax) bad debt. Net profit margin for the quarter fell to 5.7% from 6.9% for Q4 FY2014. Excluding the write-off, net profit margin for Q4 FY2015 would have risen to 8.4%.

**FY2015 vs FY2014**

For the 12 months ended 30 June 2015 ("FY2015"), revenue rose 15.1% to a record S\$499.2 million from S\$433.7 million in FY2014, reflecting the new contracts secured by the Group.

Gross profit for FY2015 came to S\$62.1 million, down 2.6% from S\$63.7 million in FY2014, as profit margin moved to 12.4% from 14.7% the previous year. The decline was mainly due to the increased number of larger-scale projects, which typically command lower margins undertaken by the Group.

Administrative expenses for FY2015 increased 31.8% to S\$25.2 million from S\$19.1 million. The bad debt impacted this number and the Group incurred higher staff costs due to new roles created for expansion activities which better position the Group to tender for new projects. Excluding the bad debt administrative expenses have remained stable as a percentage of revenue.

As a result of the Group forming a tax consolidated group for income tax purposes, there has been an uplift in the value of tax asset written down. In addition, the Group also claimed a research and development tax offset, which resulted in an effective tax rate for the Group of 15.5% for FY2015 (FY2014: 22.8%). This tax adjustment was recognised in Q4 FY2015.

As a result of the above, net profit for FY2015 attributable to shareholders declined 13.6% to S\$30.3 million for S\$35.1 million in FY2014.

The Group's FY2015 total comprehensive income included unrealised foreign exchange losses of S\$19.2 million arising from the weakening of the Australian dollar (the Group's functional currency) against the Singapore dollar (the Group's reporting currency).

In A\$ terms, the Group achieved record growth in revenue of 20.9% at A\$453.4 million with NPAT of A\$27.5 million.

## **B Statement of Financial Position**

Total shareholders' equity increased 5.2% to S\$151.7 million as at 30 June 2015 compared to S\$144.3 million as at 30 June 2014, despite the weaker A\$ which impacted reserves by S\$19.2 million.

Trade and other receivables as well as trade and other payables declined in FY2015 compared to FY2014 but remained within expectations, in view of the various stages of completion for current projects.

Current assets to current liabilities ratio increased to 1.78 in FY2015 from 1.44 in FY2014. Cash and cash equivalents increased to S\$37.6 million as at 30 June 2015 compared to S\$32.5 million at the end of June 2014.

Non-current assets stood at \$98.2 million as at 30 June 2015 compared to S\$113.6 million as at 30 June 2014, predominantly due to a decrease in the value of property plant & equipment of S\$10.2 million – attributable to the effects of currency translation.

The current tax asset of S\$11.6 million (FY2014: S\$2.5 million current tax liability) represents the amount of income tax refundable for the current and prior financial periods.

The Group is due to receive income tax refunds attributable to (i) amendments of prior year income tax returns, (ii) processing of current and prior year research and development tax offset claims and (iii) lodgement of its current year income tax return.

The net deferred tax asset of S\$0.2 million (FY2014: S\$4.7 million deferred tax asset) is due to the Group reassessing and recalculating the tax effective life of its fixed assets during the current income year.

The Group anticipates the tax effective life of fixed assets to continue to be depreciating at an accelerated rate.

During the year under review, S\$33.8 million of borrowings were repaid, de-risking and strengthening the Group's balance sheet. As at 30 June 2015, the Group had net cash of \$12.2 million.

**C Statement of Cash Flows**

Operating cash flow before working capital changes stood at S\$48.7million (FY2014: S\$53.1 million) while net cash generated from operating activities stood at S\$44.9 million (FY2014: S\$25.9 million).

This increase is attributable to working capital fluctuations in trade receivables and trade payables.

Cash proceeds of S\$33.8 million were in FY2015 to repay debt, resulting in an overall reduction in borrowings of 58.5%.

**9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**

Not Applicable.

**10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the Group operates and any known factors or events that may affect the Group in the next reporting and the next 12 months.**

As a provider of multi-disciplinary construction and engineering services to the resources, oil & gas and infrastructure sectors, Civec is invariably exposed to fluctuations in commodity and energy prices. But despite the downturn in the resources and oil & gas industries, the Group is still winning new contracts as it has been expanding its capabilities to take on more complex and higher-value projects. As announced on 2 June 2015, Civec secured A\$68 million worth of contracts from several leading companies, including Rio Tinto and GE Oil & Gas.

In the period under review, the Group set up a refractory division to install linings that can withstand extreme high temperatures and conditions. Civec has secured two refractory contracts, underscoring clients' confidence in the Group's ability to deliver highly specialised services.

The Group is making progress following its diversification into the public infrastructure sector in Australia. As public infrastructure spending in the country rises, Civec has increased opportunities to tender for work, particularly on the East Coast of Australia. In the year under review, Civec won contracts including a major contract for fabrication and site erection of steelwork for the new Perth Stadium and civil works for Elizabeth Quay, a waterfront development in Perth that will connect Swan River to the city's central business district.

As previously announced the Group is pursuing opportunities in Australia's defence sector and in this regard, Civec has set up a subsidiary, Civec DLG Pty Ltd, to provide engineering and construction services.

Having now established a foothold in the Eastern States of Australia, the Group intends to strengthen this foothold whilst continuing to further expand its geographical reach both in Australia and worldwide.

The Group's order book remains healthy, at approximately S\$250 million as at 30 June 2015. The Group continues its strong tendering activity, leveraging its diverse capabilities and service offerings. Its innovative project delivery methodologies have resulted in Civec being pre-qualified for varied tendering opportunities.

Civmec are focussed on continual improvement of internal efficiencies to reduce costs. The Group's balance sheet has been further de-risked and strengthened in Q4FY2015, providing Civmec the capacity to pursue and capitalise on opportunities as they arise.

Barring unforeseen circumstances the Group expects to be profitable for the coming financial year.
